FOR HEALTHCARE PROFESSIONALS · VOOR ZORGVERLENERS

Cancer Support NETHERLANDS

# Cancer support in English, from people who get it.

A free community for anyone in the Netherlands living with cancer: patients, survivors, partners and families. Come as you are, whenever you need us.

## What you'll find

- Our WhatsApp community: somewhere to ask questions and share the hard days and the good ones
- A monthly meet-up, somewhere different in the Netherlands each time
- Hives: smaller local groups who get together when it suits them
- Talks and wellbeing workshops
- Women-only and men-only spaces, for when you'd rather talk to someone in the same boat

### Passing us on

Hand your patient this leaflet, or ask them to scan the code. One of us will say hello and welcome them in.
